Men Nearly Exhausted. Leaving fifty men on guard, where two ralls of the railroad track had been removed, he started north. His men were nearly exhausted from thirst, hunger and fatigue, and his soldiers were unable to move faster than a dejected walk. He had been gone an hour when Rabago's train arrived, and was

when Rabago's train arrived, and was derailed.

The rebel rear guard engaged the Federals at intervals during the night. Rabago meanwhile moved into the trenches, which Orozco had deserted. The rebel leader wasted no lives in assaulting these trenches. He had built them, and knew, their strength. A skirmish fire was maintained at intervals on Sunday. Then, by a daring move, protecting his rear with rapidire guns, Rabago escaped into a pass in the hills.

The jaded insurrectos were unable to follow. Instead, they turned aside to

follow. Instead, they turned aside to lianche Fleres, where food and water were plentful and the animals could graze, and recuperate with their mas-

graze, and recuperate with their masters.

Orozco placed the number of his own dead in the Bauche fight at two, and his wounded at four. He thought that twenty-six patients, now in the Federal hospital at Juraz, embraced the Federal losses in wounded, but insisted that they lost six or cight killed, instead of one, as officially reported. He said that some of his men saw the Federals burying the dead.

The rebel force consists entirely of mounted hafantry. Those not with Orozco are near Bauche or on scouting duty in the mountains. Unlike the Federal treops, there are no women camp followers with the insurrectos.

Women With Troops.

President Diaz has no organized commissary. In its place, there are the women. Each soldier gets a few centayes aday to buy food. This they turn over to the women, who forage the country, cook tortilias if they are able to buy corn, and provide "jerked" beef.

More often than not the women have

More often than not the women have children with them. They are officially charged by the War Department, which furnished them passage on troop trains. Two of them were killed at

was a spectacle, both ludicrous

Bauche.

It was a spectacle, both ludicrous and pathetic to-day, to see a dozen of them, mostly barefoot, running after the troops as they advanced toward the robel camp. Their faces bore evidences of anxiety, as most of them are bound for what serves as matrimony, to men in the ranks.

There is no danger or privation they will not face. Residents of Mexico declare also that they are more cruel than their men folk, and that it is they who usually strip the dead, a common practice.

There are three Americans with Orozco at present. Two of them, former Philippine veterans, were under another detachment to-day, and the third, Lawrence Converse, of Glendora, cal., was accidentally on the American side during the engagement. He was unable to return in time to share in the fight.

Converse was formerly a member of the Tower Militia and also was an

unable to return in time to share in the tight.
Converse was formerly a member of the Texas militar, and also was an instructor at a military school in Los Angeles. He said that he was in communication with twenty-five American veterans who have declared their intention of joining the revolutionists the moment Juarez is taken.
While Orozco said that he intended to attack Juarez, it was plain to interviewers that he was making mental reservations. He had no news of General Navarro, who is reported advancing with 1.000 Federal soldiers from Chihuahua, but the probability of an attack from that source was plainly a matter of deep concern to him, When It was suggested that he might find it advisable to abandon for the time being his intentions toward Juarez and turn south to meet the force from Chihuahua, he returned an evasive answer.

Charges Against Dinz.

Denver, Col., February 7.—Theodore Rickeseker, a manufacturer of New York City, arrived to-night from Mexico, where he and several other American were held up on a train by insurfectos south of Juarez recently. He says he has the only complete copy of the proclamation of the Mexican revolution that has come to the United States. States.

Mr. Rickeseker said he met Brau-

lio Hernandez, who drew up the pro-clamation, written in both Spanish and Hadden, a rura The headlines read:

Arnolds Regret Notorlety He Has Been Subjected To.

New York, February 7.—The story of Harmann Phillips, a ship's rigger, who recently reported that he was positive he had seen Dorothy Arnold sail for Europe on the steamship Cincinnation January 5, was but weakly substantiated when the vessel returned here to-day from Genoa. A stewardess and two deck stewards were reasonably certain that a young woman who occupied stateroom 123 was Miss Arnold, but the purser and chief steward, on the contrary, were quite positive that the missing girl was not aboard the ship.

George S. Griscom, Jr., of Pittsburg, an acquaintance of Miss Arnold, whom her relatives sought abroad in the hope that he could clear up the case, is due to arrive to-morrow on the steamship Berlin. He has said all along that he knows nothing of her whereabouts, and Mr. Arnold said this afternoon that he and his son John would meet the Berlin and apologize to Griscom for the notoriety to which he has been subjected.

Cathey, and the Legislature in putting the Virginia coal fields on a parity with the others in the markets of the world.

The regrets of President L. E. John-ville, and Western, the Louisville and Nash-ville and Company. Claud-ville, Va. A. T. Jessup, president; J. A. Barnard, secretary and treasurer; L. P. Kuck,

This afternoon telephone messages of Président W. H. White, of the Richmond, Fredericksburg and Potomac, who were unable to be present, were delivered by President Wood, who then introduced Senator John R. Saunders,

of Middlesex, as the last speaker.

He said that the diversion of the trade of the Northern Neck to Baltimore touches the pride of Virginians. Upon this information a special train Ninety-five per cent. of this trade goes was run from Wilson over the Norfolk to Baltimore, and he said that from the little county of Middlesex \$1,000,000 and Southern and East Carolina Rail-roads, carrying a posse of about sev-enty-five men, well armed. This train left Wilson at about 3:45 and reached left Wilson at about 3:45 and reached Hookerton about 5 o'clock, arriving at capital city the size and importance of he scene.

This morning about 12 o'clock, John Ladden, a rural free delivery carrier would aid a railroad project with the'r linances.

Refreshments were served, a social session ending the reception.

Notable Exhibits.

Some exhibits which have recently been donated to the State are of great value, both intrinsically and for purposes of advertisement.

One of these is the present of the Old Dominion Development Company, which sent from its mines at Carbon Hill, Henrico county, some specimens of natural coke. It is stated that this product can be found in these mines to the astonishing thickness of eight to fifteen feet.

Probably the feature of the exhibit which will attract more attention from the public than any other, with the possible exception of that of the Mc-Cormicks, is the immense piece of Pocahontas coal, which forms the display of the Norfolk and Western Railway. It is twelve feet long, four feet square, and contains 17,180 pounds, free from bone or parting, constituting the largest piece of coal ever on exhibition. In a small case near by is a small lump from the first car of coal shipped over the Norfolk and Western Railway into Norfolk, in 1883. A celebration was held at the time, the comtents of the car being distributed

among the poor.

Best Musical Comedy in Years.

Modestly billed as a musical comedy,
"The Girl in the Train" comes very
much nearer being an operetta than
anything else. Possibly it is called a
musical comedy for two reasons: the
star is a famous comedian, and the
lines are far too bright and clever to
belong in opera

anything else. Possibly it is called a inusical comedy for two reasons: the star is a famous comedian, and the lines are far too bright and clever to belong in opera.

To begin with, the orchestra was augmented by some ten pleces, including a 'cello, which adds more to an orchestra than any other instrument not commonly used in a city of the size of Richmond, and the musical director. Anton Heindl, has drilled his cast, his chorus, and his orchestra to a very high point toward perfection—one wonders if the average audience realizes how much depends upon a musical director. And the music itself, the solos, duets, trios, quartets, and, above all, the orchestration, were far and away above and beyond the catchy stuff that is usually dished out in the name of musical comedy. For this we have to thank Leo Fall, the man who wrote every line of it.

The book is by Harry B. Smith, from the German of Victor Leon, and it is really a book. The justifiable jealousy and doubt on the part of a young married woman of her husband, who courteously gives up his compartment in the train to a charming actress, form the basis of a really clever and amusing story, which is carried through three acts of genuine fun.

At times, one grows a little bit "skeered," fearing that something is about to be said at which it would not be proper to laugh, but always the scene veers to the harmless, and every one chuckles or laughs outright. There is, however, one bit of a scene—when the sidnation, at the same time, "avoiding the appearance of evil."

After this one suggestion, there is nothing to criticize. Like Richard Carle, Frank Daniels has surrounded himself, or alhowed himself to be surrounded, with people who are as good in their line as he is in his own. He himself is funnier than he has been in years. From his first appearance as the utterly absurd judge in the hirst act, who asks the address of the bewitching witness who has just given her name to counsel, to his final entrance with an exquisitely polished high hat, with the brim turne

shop, tenor that hurts one's "false ribs."

And there are two prima donnas, think of it! Vera Michelena is the dashing, magnetic actress, and Sallie Fisher is the winning, lovable wife. Both have big opportunities and both make the most of them.

Miss Michelena sings well enough; has a marvelous figure, which her low-backed gowns display to the lowest point of propriety; dances with utmost grace, and radiates an irides cent charm. Miss Fisher is not possessed of quite the same pagan-like shapeliness, but she is more than comely. "looks like a lady," and shigs—how she can sing! In her big-kest number. "In My Dreams of You."

The Girl in the Train Waltzes."

she ran up to B natural (I think) with the simple case of a concert voice. And her dance in the second act was "a little bit of all right." A man named James Reaney, who had only a small part, developed one of the most powerful and telling tenor voices that we often have a chance to hear in this town of ours. So good was he that the whole house regretted that he had so little to sing. Henry Vincent, an Englishman, I should say, was satisfactory as one of the attorneys, and Donald Hall, as always, was strikingly handsome. Almira Sessions gave a good performance as the old maid in the liftst act, and Glibert Clayton, as Professor Wiesum, and Martin Haydon, as the sleeping car conductor, were more than satisfactory.

"Girl in the Train Waltzes."
